GRANT PARK MOMENCE

TELEPHONE DIRECTORY

FEBRUARY, 1951

ILLINOIS BELL TELEPHONE COMPANY

PAGES 1 TO 5 CONTAIN HELPFUL INFORMATION ABOUT YOUR TELEPHONE SERVICE
EMERGENCY NUMBERS ON PAGE 1

A carelessly replaced telephone
can't go to work for you! You've
closed the door to your friends
and relatives without knowing it,
for no calls can come through

while your telephone is off the
hook.

It's a good idea to be sure
your telephone is replaced
properly after a call.

SOME LONG DISTANCE RATES

NIGHT AND SUNDAY RATES APPLY FROM 6 P.M. TO 4:30 A.M. AND ALL DAY SUNDAY
RATES ARE FOR 3 MINUTES (On Station-to-Station Calls of 25 Cents or Less, 5 Minutes)

United States Government Tax Not Included in the Rates Shown Below

For calls to mobile telephone subscribers' automobiles, trucks etc.	Dial "Operator" (Tell operator you wish to place a Mobile Telephone call.)	Call "Long Distance"

ILLINOIS BELL TELEPHONE COMPANY

C. R. HAMILTON, Manager

How to Use Your Telephone

In Momence

JUST FOLLOW THESE THREE SIMPLE RULES FOR LOCAL CALLS

1. **Look in the directory**, if you're not sure of the number. If you do not find the number ask for "Information."

2. **Listen for operator's "Number, please?"**

3. **Give number to operator.** Always speak distinctly in an ordinary tone of voice directly into the mouthpiece.

TELEGRAMS BY TELEPHONE

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Company.

Charges for telegrams, cablegrams or radiograms placed by telephone will appear on your monthly telephone bill by arrangement with Western Union. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

"BEEP" TONE TELLS WHEN CONVERSATION IS BEING RECORDED

If you hear a brief, high, almost musical note on your telephone line while you are talking—a sort of gentle "beep" repeated every 15 seconds or so—you will know that the person to whom you are talking has a recording machine which is making a record of your conversation.

The signal is produced automatically by the device used to connect the recorder to the telephone line; and it is provided by the telephone company for your protection.

If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. The "beep" signal stops when the recorder is disconnected.

Use of a recorder without this signal is unlawful.

"GADGETS" DON'T HELP

Don't spend money for unnecessary attachments to your telephone offered to "improve" the service. Some are harmless, but others actually hurt the service. If you think that your telephone isn't working properly, please call Repair Service.

If you have any special needs which your telephone does not seem to meet, call or visit our Business Office. We'll do our best to help you.

Rates to Some Nearby Places

The following table shows the Day Station-to-station rates to some out-of-town places frequently called from Grant Park and Momence. The initial talking period is five minutes with the exception of rates of 30 cents or more, where the initial talking period is three minutes.

United States Government tax not included in the rates shown below

It's Easy to Dial

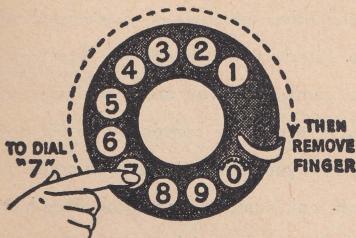

In Grant Park

JUST FOLLOW THESE THREE SIMPLE RULES FOR LOCAL CALLS

1. Look in the directory if you're not sure of the number.

2. Hold receiver to ear. Listen for dial tone—a steady humming sound. This is your signal to start dialing.

3. Dial the figures of the number as they appear in this directory. Pull the dial all the way around until your finger strikes the finger stop, then remove your finger and let the dial return by itself.

IF YOU NEED ASSISTANCE

Dial "Operator" if you need assistance. But remember, it is faster to dial yourself.

If for any reason you cannot see the dial, feel for the opening just below the finger stop. Pull the dial all the way around, release it, and the operator will answer.

Momence, Ill.

TO CALL ANOTHER PARTY ON YOUR LINE

You can determine if the party you are calling is on your line by comparing his telephone number with yours. If the first three figures of the desired party's number are the same as the first three figures of your number, this telephone is on your line.

Party line customers when calling another party on their line dial a special code number to ring the desired telephone—not the telephone number as listed in the directory for that party.

The Code Number consists of three figures

1. The first figure is always "9".
2. The second is the last figure of your number.
3. The third is the last figure of the desired party's number.

Example

Suppose your number is "7351" and you are calling "7352". The code number in this case is "912"—"9" (in all cases), "1" (the last figure of your telephone number), and "2" (the last figure of the other party's number).

HOW TO PLACE YOUR CALL

- Dial the code number.
- Hang up your receiver to allow the other party's bell to ring. Your bell will also ring at intervals indicating that the other telephone is ringing.
- When the ringing stops you will know the other party has answered.
- Remove your receiver.
- Proceed with conversation.

If your party does not answer within a reasonable period, remove your receiver momentarily in order to clear the line.

TO DIAL FROM A COIN BOX LINE

Local Calls

1. Remove receiver from hook, but do not deposit money.
2. Listen for dial tone.
3. Dial number wanted.
4. When the called number answers, you will hear the dial tone again, then deposit one dime or two nickels promptly. One nickel won't work.

To call Momence and other out-of-town places:

1. Remove the receiver from the hook, but do not deposit money.
2. Listen for the dial tone.
3. Dial "Operator". When the operator answers, give the call to her; deposit money when the operator asks for it.

YOUR OPERATOR EXPLAINS OUT-OF-TOWN CALLS

"I'm your Long Distance operator, and I can connect you with all out-of-town places. From manual telephones just ask your regular operator for 'Long Distance.' From dial telephones dial 'Operator'.

"If you don't know the number and it is not in this directory, call 'Information.'

"I will also be glad to give you information about calls to Long Distance points.

"Calls to Long Distance points are fast, too. In less than two minutes, on the average, you're talking to your party or have a report on your call. We invite you to use this dependable service.

"When you place out-of-town calls I'll appreciate it if you'll give me the number of the party you are calling. It will help your call go through that much faster."

STATION-TO-STATION

Place Station-to-station calls when you merely want us to ring a telephone number. Charges begin when anyone answers at the telephone you call.

COLLECT CALLS

If you place a call "Collect," and it is accepted on a "Collect" basis by the person you are calling, it is paid for by him instead of you. The charges are the same as on a regular Station-to-station or Person-to-person call with the following exceptions: The rate is higher on Station-to-station collect calls to telephones in Illinois, when the regular rate is 35 cents or less and to telephones outside of Illinois when the regular rate is 20 cents or less.

On calls within the State of Illinois: If the party you are calling doesn't accept the charges, a "Report Charge" applies—to be paid by you. No "Report Charge" is made, however, if you decide to pay for the call yourself.

OVERSEAS CALLS

You may talk by telephone to any one of more than 60 countries, territories and dominions throughout the world. Dial "Operator" or call "Long Distance" and place your call in the usual way.

SHIP-TO-SHORE CALLS

Certain ships in harbor or inland waters and on the Great Lakes or high seas may be reached by telephone. Dial "Operator" or call "Long Distance" and place your call in the usual way.

Momence, Ill.

PERSON-TO-PERSON

Make a "Person" call when you want to talk to a particular person, or to a particular telephone or department reached through a private switchboard. Rates are higher than "Station" rates, but charges do not begin until the person or department you want is able to answer.

If you call from a point in Illinois to another point in Illinois, a "Report Charge" will be made if the person you want cannot be reached and you ask the operator to cancel the call.

REDUCED RATES

Between 6:00 P.M. and 4:30 A.M., Monday through Saturday, reduced rates are in effect. Rates are also reduced all day Sunday and on Thanksgiving, Christmas and New Year's.

On calls within Illinois, the reduced rates apply to "Station" calls when the initial period rate is 45c or over and to "Person" calls when the initial period rate is 70c or over.

Reduced rates on calls to telephones outside of Illinois apply to "Station" calls when the initial period rate is 40c or over and to "Person" calls when the rate is 55c or over.

MOBILE CALLS

Two-way voice communication between cars, trucks, etc., and any telephone reached by the Bell System is now established as a new Bell System service. If you wish to place a Mobile Telephone call, dial "Operator" or call "Long Distance" and tell operator you wish to place a Mobile Telephone call.

Please

ANSWER PROMPTLY

when your telephone rings. If you

delay, the person who is calling may

think no one is there and hang up.

Be A Good Party-Line Neighbor

*If you are sharing your telephone
line with others, please —*

1. Be brief on all calls.
2. Give the others a chance
to use the line, too.
3. Hang up if the line is in
use.
4. Answer calls promptly.
5. Replace receiver after each
call.

SAVE TIME AND TROUBLE

Make a habit of —

Jotting down telephone numbers

you wish to refer to later

Keep the list near your telephone —

with your telephone directory

— AND —

Always consult your directory —

when you are not sure of a number.

This Gives You

Smoother, Faster Service

For That Home-To-Be...

PLANNED TELEPHONE SERVICE!

Telephone wiring can be as modern and inconspicuous as plumbing and electrical work *if provisions for it are made before your home is built.*

Concealed wiring through the use of rigid, flexible or thinwall conduit enables you to have *built-in telephone outlets* . . . neat little plates similar in design to electrical outlets . . . wherever you desire.

Conduit placed in walls and floors by the contractor at the time of construction, eliminates exposed wiring on baseboards and moldings and reduces the possibility of interruptions to your telephone service. Costs are nominal and the telephone company provides all wires and wiring work. You merely have the conduit installed.

Your telephone company will be glad to consult with you *without cost or obligation* and make recommendations for built-in conduit. Just call our business office and ask for "Architects' and Builders' Service."

ARCHITECTS, CONTRACTORS AND BUILDERS
ARE INVITED TO CALL UPON US FOR HELP IN
PLANNING TELEPHONE FACILITIES.
